KEY PROJECTS

Library Management System

Java | Spring Boot | Spring Data JPA | Hibernate | MySQL | Angular | JUnit 5 | Mockito | Maven

- Built a full-stack library management application with Spring Boot REST APIs and an Angular frontend.
- Implemented CRUD operations, borrowing/return workflows, pagination, search, and validations using Spring Data JPA.
- Implemented centralized exception handling and structured error responses for validation and business-rule failures.
- Developed unit and controller tests using JUnit 5 and Mockito to validate service logic and REST API behavior.

Expense Tracker

Java | Spring Boot | Spring Data JPA | MySQL | Angular | Maven

- Developed a full-stack expense management application with Spring Boot REST APIs, Spring Data JPA, MySQL, and Angular.
- Implemented layered backend architecture with controller, service, and repository components for expense CRUD operations.
